LISTED ON THE INFORMATION
DISCLOSURE STATEMENT
PURSUANT TO 37 CFR 1.98(a)(3)(i)**

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Dear Sir:

In addition to PTO Form 1449 that has been submitted herewith with respect to the above-identified application, and pursuant to 37 CFR 1.98(a)(3)(i), the applicant provides the following concise explanation of the relevance of the non-English language reference identified below:

<u>Document No.</u>	<u>Date</u>	<u>Country</u>
JP2000060678	08/1998	Japan

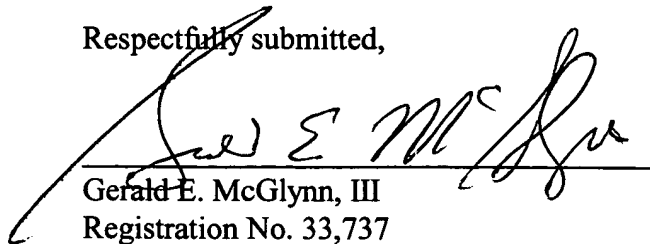

The above-identified patent was cited in a United Kingdom search report dated November 8, 2004. A copy of the United Kingdom Search Report is transmitted herewith.

Japanese Patent No. JP2000060678 discloses a headrest positioning-control apparatus for a motor vehicle seat including a gear formed on the periphery of a cam 22 that meshes with the shaft 23 fixed to the seat back frame 11. The slide and rotation to the upper part of a headrest support 15 is provided with a rack gear 15a. These components are constrained by a bearing body 16. The

height and horizontal position of the headrest 7 are adjusted simultaneously by rotating the cam 22.

In this way, the headrest position can be adjusted to the position of the head of the vehicle occupant.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Gerald E. McGlynn, III", is written over a horizontal line.

Gerald E. McGlynn, III
